Newberry Riders T

Hello November!

Wow this year sure has went by too fast. I want to thank all my chapter members that came to the District Picnic. It was a great campout and picnic. We had lots of fund with new games.

I want to thank Kim and Buddy, Chapter P and everyone else that attended the Apple Ride. Sorry we couldn't attend.

We are not having a Dinner Ride this month but will discuss December's Ride at the November Gathering on the 21st.

Don't forget the Christmas Party at Roma's December 19th at 1 pm.
Bring a white elephant gift to exchange if you want to participate. Please bring something you would like to have.

The District Kickoff is January 16th at Lexington Community Center from 9 am to 4 pm. The District Team will provide lunch and we will be selling Rally Tickets and 50/25/25 tickets as well, so bring cash.

If you can't make to the November Gathering, Happy Thanksgiving!

Donna Horning, SC-S CD

Fall Camping Trips

Camping in Cherokee

Most of the hot summer weather had finally subsided and it was time to do some mountain camping and riding. September 23-26 at The Lazy Turtle Campground in Cherokee was chosen as the home base for this adventure. As it seems is usually the case we got rained on once we got to the mountains and had to take refuge under a church awning. Rain finally slowed enough to head to camp where we set up our wet tents in a wet campground. But things got better and the rest of our time in the mountains was dry.

We spent the next several days on some of the great roads in the Smokey Mountains, the Cherohalla Skyway, Foothills Parkway, Route 441 through GSNP, where the elk were feeding right beside the road, and all the little side roads and connector roads that are so much fun in that area and also stopping at a neat little marina restaurant on a lake for lunch.

We also enjoyed time at camp as some of the other campers that were interested in our travels and came to share stories while setting on the front porch of the office/store. Of course the highlight of camp was our own Orman doing an impromptu harmonica concert.

Camping in Virginia

Our next adventure was October 5-8 at Willville Bike Camp in Meadows of Dan, Virginia. This area has some very nice riding as the roads are smooth and twisty and it is right on the Blue Ridge Parkway. No rain on the way this time as things have been fairly dry in that area but the leaves were starting to change.

We started our days with coffee and BS at camp then breakfast at Crooked Oak Restaurant then spent one day riding around the back roads near Indian Valley crisscrossing the roads through farms and forests. No big mileage day here just fun relaxing riding.

Next day after The Crooked Oak we headed to Stuart, VA to see the Wood Brothers Racing Museum. But on the way we stopped at a local motorcycle shop/museum that was filled with old Harley panheads, knuckleheads, a few flatheads and old Harley memorabilia and parts. Cool old bikes in a cool old building.

After that we went to the racing museum which is free to tour and looked at all the older NASCAR racing cars and parts collected by the Wood Brothers who still race No. 21. Lots of neat stuff even if you don't follow racing.

After that we followed twisty Route 40 and circled back which took us through Bassett, VA where Bassett Furniture has been made since 1902 then headed back stopping at Papa's Diner near camp for dinner then packing next day and heading home.

Two great fall trips.
